DETAILED ACTION

1. This action is responsive to the paper(s) filed 12/27/04. Applicant's 131 declaration is sufficient to overcome the three references previously applied (Stanbach, Jr. et al (US6449657), KR99073076A and Camut et al (US6684257)).

Specification

2. The disclosure is objected to because of the following informalities:

The disclosure contains an embedded hyperlink and/or other form of browser-executable code. Applicant is required to delete the embedded hyperlink and/or other form of browser-executable code. See MPEP § 608.01. Applicant should delete the URLs/email links on page 10 line 26, page 13 line 17, page 16 line 4.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 9-11 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

- Claims 9-11 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one

skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. These claims describe features where the sender provides the additional communication data which is believed to be the ad-related requested information. While the sender chooses the ad, the sender is not responsible for providing the *content* of the ad or its related information. The sender *indicates* the ad, but does not provide author any particular content.

Response to Arguments

5. Applicant argues that the presence of links in the specification are needed in order to comply with 112P1. Examiner disagrees. The format of URLs and mail links are notoriously well known and the specific examples are not needed to convey to one of ordinary skill how to make and use the invention. Applicant can leave the disclosure regarding the need for such links, yet should delete the exemplary syntax.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

This application is in condition for allowance except for the following formal matters: links in the specification, 112P2 rejection of claims 9-11 regarding the user providing the additional communication data.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
